**VENUE : MINI AUDITORIUM , TIME: 9.00 AM**

Dear Sir/Madam,

Department of History in association with IQAC Sreekrishna college Guruvayur is organising a national seminar on' **CONCEPTUALISING GENDER ISSUES: AN ONGOING QUEST FOR EQUALITY**' 8 th february 2019.

Gender is a dichotomous social category that prescribes behaviours, attitudes, feelings and other characteristics as being appropriate for a male or a female . That is, knowin gan individual's gender allow us to place him or her in a distinct social category and they judge his or her behaviours based on our expectations for that category. Discriminations based on gender is a common civil rights violation and in order to ameliorate the condition of women in India , legislature passed large volume of enactments. Acheiving gender equality is crucial to the development of peaceful societies. Gender equality entails the concept that all human beings are free to develop their personalities and make choices without limitations set by stereotypes. Gender issue is a significant topic of discussion, mainly in underdeveloped and developing nations today.It is because of the realisation that the development that they aspire cannot be achieved unless we achieve gender equality by empowering their women. Women need fresh and more capable environment so that they can take their own right decisions in every area whether for themselves, family, society or country. In order to make the country fully developed, women empowerment is an essential tool. With the slogan of women empowerment the question arise that "are women become really strong" and "is long term struggle has ended". Many programmes have been implemented and run by the government, to bring awareness in the society about the true rights and value of the women in the development of the nation but still they are restricted by many social taboos. In such condition, we cannot say that a country would be a developed in the future without empowering its half population means women. If we want to make a developed society, first of all it is very necessary to empower women by the efforts of men, government, laws and women too. The most famous saying by the Pandit Jawaharlal Nehru is "To awaken the people, it is the women who must be awakened. Once she is on the move, the family moves, the village moves, the nation moves.."

We request you to be the part of the event.

**PRINCIPAL**

**Prof.D Jayaprasad**
